Toronto Gardeners Survey 2018 in COVID Context

Shirin Arghandeh

2020-05-20

Creating cross-tabulations of variables garden type and duration of growing food.

```r
source("http://pcwww.liv.ac.uk/~william/R/crosstab.r")

crosstab(gardener_data, row.vars = "balcony_garden", col.vars = "growing_duration", type = "f")
```

```
##                growing_duration 1-5 yrs 10+ yrs 6-10 yrs Sum
## balcony_garden
## No                                   14      48       22  84
## Yes                                   7       9        3  19
## Sum                                  21      57       25 103
```

```r
crosstab(gardener_data, row.vars = "landlord_garden", col.vars = "growing_duration", type = "f")
```

```
##                 growing_duration 1-5 yrs 10+ yrs 6-10 yrs Sum
## landlord_garden
## No                                    16      53       23  92
## Yes                                    5       4        2  11
## Sum                                   21      57       25 103
```
